### Three Good and Just Reasons.

There are three reasons why mothers prefer One Minute Cough Cure. First, it is absolutely harmless. Second, it tastes good—children love it. Third, it cures Coughs, Croup and Whooping Cough when other remedies fail. Sold

### EL PASO TEAM IN THE CITY

Ball Boys From Texas Town  
Opened Series of Two  
Games Today.

### BEST GAME WILL BE TOMORROW

The El Paso Browns arrived in Albuquerque from the south this morning. Captain Widman and the team were taken to the Sturges hotel where the boys will stop while in the city. The team looks husky and Captain Widman said that the boys were in a first-class condition, and expected to give the local team a run for their money.

This afternoon the first game of the series of two is being played at Traction park. Despite the cloudy weather a fair sized crowd is in attendance. Tomorrow afternoon, if the weather permits, one of the best crowds of the season is expected to turn out to the game.

Captain French stated to a Citizen representative this morning that the Browns were in fine condition and that he had no thought other than that they would take both games from the visitors.

### DIAMOND DUST.

First Baseman French, of the Browns, who has been playing nothing short of phenomenal ball this season, has been rewarded for his good work on the diamond. French has been chosen captain of the team, to succeed Roy McDonald, the veteran catcher, who has retired from the base ball world. French is a consistent player, holding down the initial sack in splendid shape. His batting percentage is also along the top notch in this year's playing.

Manager Houston is jubilant over the way the Browns are playing ball this year. He says all that he is afraid of is that some of his stars, such as Third Baseman Neher, Second Baseman Kuntz and Catcher Pettie will get flattered offers to finish out the season with major league clubs. The local fans, however, are counting on the loyalty of the boys to pull together and go after first money in the fair tournament, with a vengeance.

The Santa Fe base ball team arrived at Las Vegas this morning, where this afternoon they opened a series of two games with the Blues. Las Vegas is confident of taking the measure of the boys from the Capital City in both games, as the Blues have greatly strengthened their team in the last week. Gorman and Sabo, former players in the Western league, who will play first base and short stop, respectively, for the Blues, have arrived at Las Vegas, and probably made their first appearance in the game with Santa Fe today. The Santa Fe team is said to have added a strong pitcher to its team in Gallegos, the crack pitcher for the Sacred Heart academy at Denver. These additions should make the game in the Meadow City today and tomorrow good, and the outcome is awaited with interest by the local fans.

The Albuquerque team is now playing the best ball that it has for several seasons. The boys intend to do their best to keep up their present record. The way to help them to do this is to patronize the games and root for the local team. Give the boys a healthy round of applause when they make a good play and have a good inning. Also overlook the lit-

### SEES MOTHERS SIT IN PRESIDENTIAL CHAIR

MARY ELIZABETH LEASE GIVES HER APPROVAL OF JUSTICE BREWER'S PROPHECY AND NAMES CONDITIONS—WOMAN'S EVOLUTION MEANS POLITICAL CHANGE OF GREAT MAGNITUDE.

(In a recent address, Justice Brewer, of the supreme court of the United States, ventured the prophecy that it would be only a question of time until a woman would sit in the chair as president of this country. Mrs. Mary Elizabeth Lease, of New York, formerly of Kansas, famous as a lecturer and writer on female suffrage and kindred subjects, has written this article for The Evening Citizen, taking for her text Justice Brewer's prediction.—Editor.)

By Mary Elizabeth Lease.

Twenty years ago the man who would hazard his reputation as a prophet by giving statement to his belief that a "woman would yet be the president of the United States," would be considered foolhardy and unreliable to the last degree. Today, the irresistible logic of events

MRS. MARY E. LEASE.

Machinery has broken  
down physical barriers.

The accident of sex  
will not govern elections.

Mothers of two grown children  
should be eligible to office.

No chaos when the first  
WOMAN becomes president.

readers the actualization of this statement not only possible, but highly probable.

It is just possible that the chief justice in his address to the Vassar graduating class delivered an "occasion" address. Be this as it may, he prophesied, not so much as he reasoned, from cause to effect.

Justice Brewer has an analytical, profound, reasoning mentality; his hand is steady enough to feel the throbbing pulse of the times, his vision clear enough to perceive the approach of mighty change, and he is brave enough to prepare the highway of human progress for the coming of the inevitable. Within a life time he has seen the color line wiped from the constitution, and the reasons, not unaptly, that the sex line—equally barbarous and unjust—must inevitably disappear before the awakened intelligence and aroused sense of justice of the American people.

They're Emancipated.

As the discovery and use of gun-powder placed the peasant upon an

equal war footing with the mailed and helmeted knight, so the enormous increase in mechanical appliances and productive machinery has taken woman out of the ranks of the unpaid menials and placed her on an equality with man in the warfare for existence. The commercial evolution that it going on in the world around us has given her opportunity to obtain recompense for toil, leisure for mental development, and is slowly but surely breaking down the physical barriers that had hitherto been considered insurmountable.

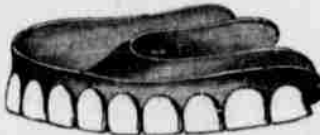

From the last census we learn that there are now in this country between 4,000,000 and 5,000,000 women and girls earning their own living. The rapidly increasing numbers of bread-winners among women makes it painfully evident that men are unable, unwilling or incompetent to support women, that indeed, they are not capable of supporting themselves, as evidenced by the "bread line" around Fleischmann's bakery during the winter months, and by statistics that there

is good hand clapping. Turn out to the majority. Nothing discourages a player any more than to have the crowd growl at an error he has made, when probably during the game he has made several sensational plays without receiving so much as even a

### Forced to Starve.

B. F. Leek, of Concord, Ky., says: "For 30 years I suffered agonies, with a sore on my upper lip, so painful sometimes that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve. It's great for burns, cuts and wounds. At all druggists; only 25c."

are 27,000 men in New York city who are supported by women.

Demands Coming.

As women wage earners are without exception paid a smaller salary than men for the same amount of work, we may well believe that the time is not far distant when women workers will demand that the right of suffrage and the power to enact legislation shall not be governed by the accident of sex.

But here is it well to emphasize the fact that, despite the utterances of the childless women who are leading the suffrage movement, we cannot violate or ignore with impunity the laws of nature, for they are as fixed as the pathway of the stars.

Must Still Be Mothers.

Woman's part in the stupendous economy of nature, is, first and distinctively most important, that of motherhood, but as the function of motherhood ceases when the woman is in the prime of life, wise by reason of her experience, fortified and strengthened by maternal ties, there is—there can be—no logical reason for denying to woman the right to vote and the right to hold office when she has reached this period of her life.

Nature's great work for the individual is reproduction. Statistics show that one child out of every three dies, thus nature's task is incomplete, and the responsibility of the wife to nature and to nature's God is not discharged until she has reared at least two children to adult age.

Slowly, but surely, it is dawning upon the minds of men that the good mother in the home will be the good mother in the nation, for the nation is but an aggregation of homes.

"A WOMAN WILL YET BE PRESIDENT OF THE UNITED STATES," and the change will be brought about quietly; there will be no chaos, no friction, nothing more menacing than readjustment—the readjustment the effort of the people to adapt themselves to the new conditions that are pressing upon them.
